

Double Cut - D/C

For efficient stock removal. Creates a very small chip.

Aluminum Cut - A/C

Plain Cut

Milling cutter style flute construction.

Provides rapid stock removal on non-ferrous metals,
and other soft materials. For General purpose grinding.
Where fair finish and stock
removal is required

Diamond Cut

Chip Breaker

For use on heat treated and tough alloy steels.
Creates a powder-like chip for general purpose grinding where
smaller chip is required.
